## SUMMARY

Frontend Developer specializing in React.js, JavaScript (ES6+), and Tailwind CSS, with professional experience building responsive, production-ready interfaces and e-commerce platforms. Strong foundation in Data Structures, Algorithms, and OOP (C/C++), with 350+ competitive programming problems solved. Currently pursuing a BSc in Computer Science and Engineering and seeking a Frontend React Developer internship to apply clean, scalable engineering practices in a collaborative team.

## SKILLS

**Frontend:** JavaScript (ES6+), TypeScript, React.js, Tailwind CSS, HTML5, CSS3, Bootstrap, Responsive Design

**CMS & E-Commerce (Professional Experience):** WordPress, WooCommerce, Shopify, Elementor, Divi, WPBakery

**Tools & Practices:** Git, GitHub, REST API Integration, VS Code, Vercel, Chrome DevTools

**Programming Foundations:** C, C++, Data Structures, Algorithms, Object-Oriented Programming

## EXPERIENCE

### Web Developer — FB International BD

Nov 2024 – Oct 2025

Dhaka, Bangladesh

- Developed responsive, mobile-first interfaces for 10+ client projects using HTML, CSS, and JavaScript, delivering clean, cross-browser-compatible code
- Engineered custom JavaScript interactivity across 5+ WordPress and WooCommerce client websites, enhancing user experience with dynamic features and improving retention
- Boosted page load speed by up to 40% through asset optimization, image compression, and caching strategies across client projects
- Collaborated with a 3-member cross-functional team of designers and developers to deliver scalable web solutions on schedule and within budget

## PROJECTS

### PitchKit — Football Jersey E-Commerce Platform

React.js, React Router, Tailwind CSS

[Live: pitchkit-jersey-website.vercel.app](#)

- Developed a full-featured e-commerce storefront for football jerseys with 50+ product listings, a dynamic cart, and wishlist functionality using React.js
- Architected 8+ reusable components (product card, rating, bundle, league filter) with automatic discount logic, reducing code duplication by 30%

### Food Hunter — Restaurant & Food Ordering Web App

React.js, Tailwind CSS, JavaScript

[Live: food-hunter.vercel.app](#)

- Launched a responsive food ordering platform featuring 12+ reusable React components for menus, categories, and dynamic product cards with a clean, modern UI
- Managed React application state using hooks for seamless browsing across mobile, tablet, and desktop, ensuring optimal rendering performance

### Graphicon Business — Corporate Business Website

React.js, Tailwind CSS, JavaScript

[Live: web-graphicon-business.vercel.app](#)

- Constructed a modern corporate website with 6+ reusable React components including Hero, Services, About, and Contact sections, using Tailwind CSS for consistent styling
- Designed high-converting call-to-action sections and fully responsive layouts across 3 breakpoints, enhancing user experience and boosting site engagement

## EDUCATION

### BSc in Computer Science & Engineering — Southeast University

Nov 2023 – Expected Dec 2027

Dhaka, Bangladesh

### Diploma in Computer Engineering — Graphic Arts Institute

2018 – 2023

Dhaka, Bangladesh | CGPA: 3.61 / 4.00

## CERTIFICATIONS & COMPETITIVE PROGRAMMING

- JavaScript (Basic) & SQL (Basic) Certificates — HackerRank, Nov 2025
- 300+ problems solved on Beecrowd | Codeforces rating 818 | HackerRank Hackos 372 | Regular DSA practice on LeetCode
